Subject: RE: THE YUCCA MOUNTAIN NUCLEAR WASTE DEPOSIT PROJECT

Part of Records Package / Supplement / Correction

- C.htm

553281

To whom it may concern:

As tenured Nevada residents, concerned citizens, and as a retired Army officer both my wife and I are extremely concerned about the Energy Department's projected deposit of nuclear waste at the Yucca Mountain Project site just 90 miles from Las Vegas.

In lieu of the fact that Nevada is home to millions of people and is no longer a vast empty wasteland and in lieu of the current state of war and terrorist activities in the United States, we are fearful that this depository whose location the media has detailed for willfull and would be terrorists, is no less than an act of suicide for this part of the country and its residents.

THEREFORE WE ARE UNEQUIVOCALLY AGAINST THE YUCCA MOUNTAIN NUCLEAR DEPOSIT SITE PROJECTED TO BE BASED HERE IN NEVADA.

Thank you,

Stevi and Benn Nichols
